## GENERAL COMMITTEE NOTICE TO THE GENERAL MEMBERSHIP.

To: All ABC Members  
Date: 30 March 2020  
Subject: Further Measures of Control, from 30 March midnight until further notice.

In the light of the Government's introduction of new Regulatory Restrictions on gatherings in Public Places with which the Club must comply, coupled with a consequent reduction in the number of members visiting the Club, the General Committee has decided to implement the following new measures with effect from Midnight Monday 30<sup>th</sup> March 2020;

### NEW OPENING AND CLOSING HOURS OF THE CLUB

- Please note a reduction in the Club's operating hours to 12 hours only from 10:00hrs to 22:00hrs daily including the weekends. This is a simple reflection of recent attendance numbers which will provide some relief to the staff with the benefit of some cost saving.
- Breakfast will now be available from 10:00hrs to Noon every day.

### BOATING PRACTICE AND PONTOON USAGE

- Given the restriction to a maximum of 4 people in any one group, private boat owners with a crew or group comprising a greater number may no longer pass through the Club and board or disembark from the Main club or Middle Island Pontoons.
- Instead they must use the adjacent Public Piers and other piers around the typhoon shelter or Deepwater bay and use commercial sampans to and from their mooring.

Members are requested to understand that the Committee is acting to comply with Government Regulations, while 'trimming the sails' so as to keep the Club operating for the benefit of the majority, to the extent possible within the constraints we face.

It is in the interest of all members to adjust to the new reality in order that we may continue to enjoy the facilities that remain available.

**Chris Pooley,**

**Commodore, on behalf of the General Committee.**
