ABC'S SELF DISCIPLINE POLICY

Dear Members,

The Club maintains its facilities in the safest and most hygienic manner possible, at all times, but particularly so now to allow members to use the facilities during these difficult time.

The Club has tripled its cleaning routine, provided alcohol sanitizing areas around each outlet and on Middle Island, please make sure that you and your guests make use of these every time you see one. Staff are being checked every day and provided with mask.

We all have a certain level of duty of care to each other so please take or continue to take a good self-discipline and careful attitude when visiting the Club.

- Observe good personal hygiene
- Self-quarantine and seek medical advice if feeling unwell
- Now even more than before and based on W.H.O and Hong Kong government guidance, we are now asking that members who have been to the following locations in the past 14 days to consider seeking medical advice before visiting the Club

This includes Main Land China, Italy, Hokkaido, Japan; Seattle, Washington, South Korea, Iran, France, Germany and Spain. This list is not exhaustive and may increase.

Please help us to stay clear of the virus and to avoid closing our club house as has been the case for some other Clubs recently.
