Dear Members,

RE: Further relaxation in relation to COVID 19

It has been sometime without any update from the government on the relaxation of restrictions. Finally it has come and will take effect Friday 30<sup>th</sup> for one week. As usual all current regulation under CAP 599 F (business regulation), G (Group Gathering), I (wearing of mask) measures are carried forward with some slight modification as listed below.

Interesting enough social group gatherings remain at 4 people but now our table in the restaurants will allow 6 people and all venues will increase their capacity to 75%. The Waglan Bar remains at 4 people per table also a mystery but nevertheless a law to obey.

You will be pleased to know that finally our Pianist David R can legally entertain you on Saturday in the four peaks restaurant and that our DJ David L will be playing his music for Halloween.

No need to remind all of you to wear your masks at all times when moving around the Club, wash your hand or use our sanitizers. We keep on taking your temperature and disinfecting the club every evening when you sleep so that we are ready for you the next day.

Stay safe have a great weekend,

Sincerely yours,

Philippe de Manny General Manager
